

HY-230-2-4S-HD

HYTORC standard Electric power packs.

Reliable, efficient and economical, the HY 230 will outperform any standard pump on the market.

About the Pump

Hydraulic Power System operates at a very quiet 69Db. All pumps come equipped with an Oil Cooler and ready to handle extreme workloads making overheating a thing of the past. Simple controls make for short set-up times and with the semi-automatic feature the operators will experience faster and easier tightening.

Pump Features

Stages
4

Weight
26 Kg

Reservoir Capacity
8 l

Max. flow rate:	9,0 l/min
Amperage	7 AMP/230V
Gauge	0-700 bar (+/-1% Acc.)
